One video covering the three areas the submission checklist asks for:

1. **Full Playthrough** — Levels 1-1 to 1-3, including the sub-vaults and both boss fights.
2. **Feature Showcase** — engine, level editor and the multiplayer / AI modes.
3. **Gameplay Mechanics** — power-ups, entities, blocks, bosses and interactions.

See [demo_video_requirements.md](#) for the section-by-section checklist the video is measured against.
